WASHINGTON HERALD BUREAU,

625 King Street. Alexandria, Va., Aug. 24.-The business session of the twenty-fourth annual State convention of the Virginia Firemen's As sociation was held in the opera house at 2:30 o'clock this afternoon, with J. R. N. Curtin, State president, in the chair. Prayer was offered by Rev. C. B. Smith, State chaplain.

President Curtin introduced Representative C. C. Carlin, of this city, who delivered an address of welcome on behalf of the city. The volunteer fire depart-

Association. Mr. Carlin also paid a tribute to Washington, who, he said, was a 'matchless volunteer fireman." Mr. Carlin said he was glad to see the legislature had passed a law for relief to the volunteer firemen who might be disabled in the discharge of duty. In conclusion, he referred to the historic associations of the old town, and wished the firemen a happy

Mayor Paff Speaks.

On behalf of the city government an address of welcome was made by Mayor Frederick J. Paff, who said it was specially pleasing to him to welcome a Virginia delegation. Briefly, he called attention to the fact that the Chief Executive was trying to deprive this part of Virginia of a strip of her territory, but he said he had assurances from "the powers that be" that such would never take place. He said it was not with reluctance that he turned over to the fire laddies the keys of the city, as he felt certain they would be returned untarnished, and in conclusion wished that all should enjoy themselves.

On behalf of the local fire department, John H. Trimyer responded. He said the Alexandria fire department had 150 volunteers, three steamers, two hose wagons, and one truck, together with minor apparatus. The city feels, he said, that it is able to cope with any ordinary fire. Mr. Trimyer praised the who frequently gave their lives to save tive appearance. The throngs strolled up others. Providence, R. IGNORANCE.

It was the steenth of August, the day was close and warm; I stepped into a schoolhouse to watch the kids perform; and I had sticks of candy and other treasures rare, to hand out to the children whose showing was most fair. The teacher asked them questions as simple as could be: "What town in Asia Minor is on the Irish Sea?" "A farmer has three horses; of one he is bereft; two others are impounded-how many has he left?" "Forty thousand tigers, in just a half a day, will drink ten tons of water and eat ten stacks of hay, how many one-eyed soldiers would build five miles of fence, when eggs and rotten apples are sold at fifteen cents?" The children, bright and eager, gave answers every time, their energy and brightness, I thought, were most sublime. But there was one exception, a youth with forehead low, who merely scowled and mumbled his answer: "I don't know." His presence cast a shadow upon the cheerful scene; his answers shamed his teacher, and made the school seem mean; and then I sprung the candy-a chunk for every one, except the ignoramus-of course that youth got none. And seldom does the candy in this world's battle go to any weary bonehead who answers "I don't know."

In the summer people of all ages are very subject to "running of the bowels." Germs get into the food or water, find their way into the intestines and keep irritating them so that there is a constant desire to have movement. It is very weakening, destroys appetite, disturbs sleep, and produces an itchy feeling that many suppose to be piles. There are many "quick cures" for this aggravated form of dysentery, but they usually contain a narcotic, and that is dangerous. Others try salts and laxative waters, but they have no permanent effects. It takes a remedy with ingredients such as are combined in Dr. Caldwell's Syrup Pepsin to drive out the trouble-causing germs, to clean out the intestines to strengthen the stomach and enliven the liver. Ordinary remedies cannot do this, but it is a well-known fact that Dr. Caldwell's Syrup Pepsin does do it. Thousands use it every summer for this very purpose.
